

MODEL

CONTEST DESCRIPTION

The incredible Virt-a-Mate community keeps raising the bar with beautiful artwork, breathtaking looks and stunning videos! You're all doing such amazing work and we want to inspire you to keep raising that bar with another contest!

The theme for this contest will be a "**Springtime Model Contest**", where contestants will submit a portrait/glamour shot image and a .VAR. Winners will make up the banner, and we will all enjoy unique and original VaM content!

This is a contest that Ross had the community (that's you!) vote for back in October of 2021, and it fell by the wayside, so I'm bringing it back, since it was something you wanted to do, and it's a great idea!! I want to be clear that it **does not have to be a female model**. Futa and male models are encouraged to be submitted!

GENERAL CONTEST INFORMATION

The contest will be run on the official VaM Discord server, in the #contest channel.

The green checkbox emoji on Discord will be used as the voting system. Other emojis can be used, but please bear in mind your vote will not count unless you submit a green checkbox emoji.

When the contest begins ALL entries will be posted at once with creator name and submission number. Voting will begin at that time.

At the conclusion of the contest, the top 5 portraits (those with the most votes) will be chosen for the creation of banners across Virt-A-Mate's social media platforms.

Winners of this contest will also receive a role on Discord, the "Contest Winner" role, currently represented by a green color.

TO PARTICIPATE

In order to participate, contestants must PM me their **portrait entries** via Discord personal message. My name on Discord is "VaMRainey#4644".

You can submit up to **two portrait images** for voting.

Entries must be received by the submission deadline.

RULES

- Custom hair: **Allowed**
- Custom clothes: **Allowed**
- Assets: **Allowed**
- ReShade: **Allowed**
- In-game use MacGruber's PostMagic, luts or other: **Allowed**
- Custom environments: **Allowed**
- Custom textures: **Allowed**
- Nudity: **Allowed, but allow room in the model's portrait to be used on the banner without nudity, please!**
- Minimum Resolution: 1920x1080 (*Higher resolutions such as 2K & 4K recommended*)
- [VaMScenes sub rule #2](#)
- Celebrity, real people or game / movie IP: **Not allowed. We want to see *your* creations!**
- Image editing: **Not allowed**. In other words, the portrait submission must be visually identical with screenshot captured in VAM. Cropping the image is ok (see Minimum resolution above).
- Be aware of copyright in what you choose to use with your model - give credit to other creators as necessary! We would hate to see your contest entry removed due to lack of proper credit! Please see our [Creative Commons Licensing](#) graphic for more info.

Create and submit: Submit portraits to VaMRainey by April 11th, 2022. .VARs of the models are to be uploaded to the hub by April 11th so we can all access them to try them out!

Contest and Voting: Voting will take place from April 11th-18th in the #Contest channel in Discord with the green checkmark.

Banners will be updated / contest winners announced a few days after the contest has finished. Any questions beyond the FAQ below, please pm me.

Q - Can I post my images on #screenshots before the contest?

A - I would recommend you wait until the contest starts. The reason: If you create a great image and you share it on #screenhots, it may lose that powerful first impression when the contest starts.

Q - Can Discord handle uploading large images?

A - Currently, yes. Thanks to our members boosting, Discord has reached Level 2 and can handle uploads of up to 50 mb.

Q - Why are you running contest this on Discord?

A - Because after running 8 contests on Reddit, voting, viewing images and managing entries was difficult, cumbersome and unfriendly for everyone. Discord is better suited to this purpose.

Q - Why do I have to submit my image to you?

A - Because this way all images will be posted by me at the start of the contest - giving everyone a fair and equal chance at being seen by the largest number of community members. I can't tell you how many times I have seen a stellar image enter the contest last minute, only to receive reduced visibility.

Q - Why can't I post on the #Contest channel?

A - Keeping posts to mods only will keep the channel formatting clean during contests.

Q - What if I send you my image late?

A - If you send me an image after the contest starts, a) It won't be seen by as many participants b) It may be several hours before I see it and can post it. The best advice is to submit the image by the end of the submission deadline.

Q - Why can't I post pornography or XXX rated themes?

A - Because it's not the theme for the contest.

Q - Can I share the scene or look I used for my contest entries after the contest is done?

A - Yes, but if you decide to share be careful not to share .var, .vac or .jsons with copyrighted material. Also, share after the contest is done, not before. :)

Q - Should my model be nude, clothed, or semi nude?

A - This has to be your decision. To help you decide: Twitter does not allow nudity on their banners, while Reddit, and Slushe do. Both of these still constitute a **Contest Winner**. The best advice is to go in the direction that inspires you!
